

# *Sundae Flavour*

## *Applauded by*

### *Mr. Bob Hope*

A bright young singing group currently entertaining Guam nightclub patrons will soon be among the biggest names in show business, or so says America's 20th century "man for all seasons," Mr. Bob Hope.

After encountering the Sundae Flavour for the first time, Hope became such enthusiastic admirers of the five young singers, he took them on his recent tour of colleges and universities in the Northwestern United States and then taped their act for showing on an upcoming NBC Bob Hope television special.

What causes all the excitement and managed to impress such a show business veteran as Hope? Among other things, their unusual harmony in counter-point make them members-in-good-standing of the folk-rock establishment, currently presided over by The Mamas and The Papas.

But they also manage to overcome folk-rock domination and dot their performance with pop standards, spirituals and comedy material reminiscent of the Surendipity Singers.

The Sundae Flavour is composed of Bob and Steve who also play guitars; Dale Zpenek who plays fender bass and vibraphones; Alex Corbbrev; and lovely, pert Anita Nero.

For a delightful change of pace and a fast paced, swinging show, the Sundae Flavour seem to have the ingredients to surpass anyone's favorite confectionary delight.
